

PALLA JANAKIRAM

DATA ANALYST

Hyderabad, Telangana | +91 9866804339 | janakiram.palla01@gmail.com | [GitHub](#)

PROFESSIONAL SUMMARY

Data Analyst candidate with 2+ years of experience in technical operations, structured-data validation, quality checks, reporting, and issue analysis. Uses SQL, Python, Pandas, Excel, PostgreSQL, Power BI and DAX to clean data, validate KPIs, build dimensional models and create decision-focused dashboards. Portfolio work covers banking and healthcare analytics, including locally executed PySpark, Delta Lake and dbt pipelines.

TECHNICAL SKILLS

Analytics: SQL, Python, Pandas, NumPy, Excel, data cleaning, validation, EDA, KPI reporting, business analysis | **BI and databases:** Power BI, DAX, Power Query, dimensional modeling, PostgreSQL, DuckDB, data visualization | **Modern analytics:** PySpark, Apache Spark, Delta Lake, dbt, medallion architecture, Airflow DAG design | **Tools:** Git, GitHub, ArcGIS Pro, Google Earth Pro, KML/KMZ, Microsoft 365

PROFESSIONAL EXPERIENCE

- Sr. Associate - Customer Support** | Tech Mahindra **Mar 2026 - Present**
- Validate structured mapping and operational records against defined business rules, document discrepancies, and maintain accurate service records within SLA timelines.
 - Investigate recurring data and service issues, coordinate escalations, and communicate resolution status clearly to internal stakeholders.
- Technical Support Engineer** | Blue Dome Technologies **Jan 2024 - Dec 2025**
- Performed data extraction, validation and quality checks for road-infrastructure, mapping and asset-analysis workflows using Excel, GIS tools and structured datasets.
 - Reconciled asset attributes, GPS/KML information and source imagery; identified missing, duplicate and inconsistent records for correction and reporting.
 - Maintained analytical deliverables, issue records and SOPs while coordinating with technical, GIS and operations teams to resolve data-quality problems.

SELECTED PROJECTS

- FinTrust Banking Intelligence** | Portfolio Project **2026**
- Built a six-page Power BI banking dashboard covering executive performance, deposits, transactions, credit risk, fraud, customers and branches; validated 108 report elements and ten headline KPIs.
 - Implemented a local Bronze-Silver-Gold lakehouse across 257,969 records using PySpark and Delta Lake, with checksum-based incremental ingestion and partitioned transaction processing.
 - Built 11 dbt models with 12 passing tests, DuckDB serving tables, quality gates, monitoring and an eight-task Airflow DAG design; 8 automated repository tests passed.
- Repository: [github.com/Janakiram10/FinTrust-Banking-Intelligence](#)
- MediCore Healthcare Analytics** | Portfolio Project **2026**
- Analyzed synthetic multi-hospital operations covering 500,000 appointments and 300,000 encounters using PostgreSQL, SQL, Python and Pandas.
 - Built validated Power BI and Plotly Dash reporting for revenue, collections, patient flow, no-shows, satisfaction, wait times and readmission monitoring.
- Repository: [github.com/Janakiram10/MediCore-Healthcare-Analytics](#)

EDUCATION AND CERTIFICATIONS

Bachelor of Technology in Mechanical Engineering | WISTM, Andhra University | 2020 - 2023 | 72%
Certifications: SQL for Data Analytics | Python for Data Analysis | Microsoft Power BI | Microsoft Excel for Data Analysis
